

# Do your part to keep polluted stormwater out of our rivers, lakes, and Casco Bay!

Stormwater runoff is a major problem in Maine. As rainwater runs across pavement and rooftops, it picks up pollutants and carries them to our waterways. Rain barrels capture and collect stormwater before it becomes polluted so the water can be used for lawns, gardens, and indoor plants. They also help you conserve water, too.

## Order your rain barrel TODAY!

We are pleased to provide rain barrels at a discounted price of \$68.58 (includes tax & handling).  
This is over 50% off the retail price!

### Features:

- Repurposed 55-gallon, food-grade barrels  
*(May have minor scratches and vary slightly in color)*
- Barrel color is reddish brown
- Screening at the top keeps mosquitoes, insects, and debris out
- Removable lid for easy cleaning
- Solid brass threaded spigot for connecting to a hose
- Overflow hose directs water away from the foundation
- Multiple barrels can be joined for additional storage capacity
